SSRC842M with Graphite rear handle and hard form upper handle

KOKANEE Rods

What the designer says:

Photo Courtesy of Crystal Basin Tackle

After many years of fishing for trout and kokanee I began to become frustrated with the fishing rods out on the market. To get a fishing rod with the fun fighting action that we all like you had to spend close to \$200.00 It became apparent that a quality rod at affordable pricing was needed. I teamed up with Kufa Sports to design a rod that would fit the market. Most of the rods on the market were in the 7' range. If you wanted an 8' rod most of the time you were into steelhead and salmon rods. So with my design input Kufa built what I believe to be one of the most affordable fishing rods with all the features that you would ask for. The rod is 8 foot with a light action about 3/4 the way down the rod. Don't let that fool you there is still plenty of back bone in this rod to handle big fish. In fact I tested the prototype rod on land lock King Salmon and caught them to 7 pounds on this design. You will not be disappointed once you fish with this rod. Warning don't let your fishing buddy try it for too long or you might not have it any more. Let them know where to get one of their own.

CASTING KOKANEE ROD

KC802UL New design with graphite rear handle

KC 802UL is a dedicated Kokanee rod. With its light-weight structure and ultra-light power, Kokanee fishing has never become easier and more fun! New Graphite rear Handle.

DP SERIES SENKO RODS

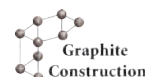

Dropshot fishing is a form of angling whereby a light to medium weight spinning rod & reel outfit is used to retrieve artificial lures at various retrieval speeds. Soft plastic lures have revolutionized this form of fishing. Compared to other forms of fishing, dropshotting has proven to be a highly productive form of fishing and a healthy numbers of fish are easily obtainable time and time again. Nothing can compare to the enjoyment of catching fish on light tackle.

Model	UPC	Action	Length	Line Weight (lb)	Lure Weight (oz)	Pieces	Number of Guides
DP702	882746002315	MF	7'	4-10	1/8~3/8	1	7+Tip

KSM SERIES MOOCHING RODS

IM7 graphite blank with solid stainless steel guides. Specialized for salt water anglers. A vast number of top fishing guide services employ this rod for their commercial guided fishing needs. This is a good testimony for its durability and reliability. While extremely balanced and sensitive this rod is totally comfortable for many hours of fishing pleasure.

Model	UPC	Action	Length	Line Weight (lb)	Pieces	Number of Guides
KSM1062MH	882746161081	MF	10'6"	10-30	1	10+Tip

I recently returned from a salmon fishing trip to the Queen Charlotte Islands where I used your KSM 1062MH mooching rod for the first time. I was fortunate to land a 65-pound Chinook salmon with your rod. The fight lasted 2 hours and your rod performed amazingly throughout the battle. I have salmon fished for over 20 years and used many different rods in the past. I am especially pleased with the quality of the KSM 1062MH rod, the sensitivity of the tip without the sacrifice of rod strength, and it's durability. The 65-pound Chinook is proof that the KSM 1062MH is up for the challenge of big Chinook salmon fishing. I highly recommend the rod to anyone interested in a great value without the sacrifice of quality.

SALT WATER TROLLING RODS

DRTC SERIES DOWNRIGGER TROLLING RODS

Trolling is the most effective way to catch many species of fish. A moving bait or lure in the water trolled at the depth where fish are present is the best way to ensure a hookup. When a fish hits, the DRTC series downrigger trolling rods will help you accomplish the catch.

INFLATABLE SHRIMP POT FLOAT

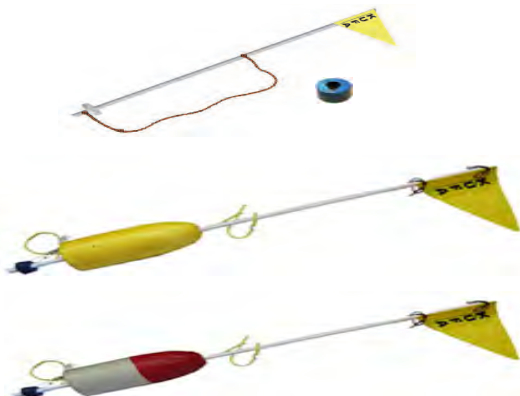

Our new bright yellow 1.5 mm PVC float is easy to see and locate in rough water.

It has enough floatation for most shrimp pot and line combinations. When using heavy duty shrimp pots and 400+ feet of lead core rope two floats are recommended.

CANNON BALL SNUBBER

Kufa trolling snubbers are equipped with a ball bearing swivel on one end and a quick release snap on the other end. Choose the right length for your trolling need.

We have three lengths to choose from 15", 20" and 30". Using a snubber makes retrieving your cannonball easier on your hands and safer. Helps keep the ball in the water while you change or attach your lures to your downrigger clips.

KUFA Sports Enterprise Ltd. Warranty Policy

KUFA Sports Enterprise Ltd. warrants its rods and reels against defects in materials and/or workmanship for a period of one year (1) from purchase date to the original purchaser of the product. Please retain your sales receipt as proof of purchase date in the event warranty work becomes necessary. Kufa Sports is not responsible for normal wear and tear, nor failures caused by accidents, abuse, alteration, modification, misuse or improper care. If your rod or reel fails to perform within one year of your purchase you must return it to your dealer along with your original purchase receipt for evaluation. Kufa will replace defective parts for free if it proves to be a defect in materials or workmanship. If the rod or reel is no longer instock KUFA will replace it with a similar model. If the dealer can not provide warranty services, or if the product is no longer under KUFA's one year warranty program, and you want the product repaired you may contact our customer service by e-mail info@kufasports.com or call our toll free number 1-866-827-7678. We will be happy to give you a price for the replacement part, and mail it to you upon receipt of your check (payable to KUFA Sports Enterprise Ltd.) or credit card information to cover the cost of the new part and \$20.00 shipping and handling charge.
